

Prof. Dr. Volker Nowotny

Senior Director Health & Life Sciences

He started his professional career as a group leader at the Max-Planck Institute for Molecular Genetics using neutron scattering to study biological specimens. After five years he followed a call that brought him into the USA to join Washington University School of Medicine in St. Louis. During the 20 years that he spent in the United States he worked in research and taught at universities, was an active IT leader and consultant – over the years he was building up his broad knowledge of chemistry, biochemistry and IT infrastructure. At c.a.r.u.s. he holds responsibilities in the area of Health & Life Science. On one hand his know-how contributes towards the development of software solutions, on the other hand Prof. Dr. Nowotny interacts with many customers.
